

COURSE NUMBER: TNE021

# High-Performance Protection for Floors and Walls

Credit: 1.0 LU | HSW | PDH

## COURSE DESCRIPTION

Epoxy and urethane floor and wall systems are useful in numerous environments. Their durability, versatility and seamless installation make them popular in the commercial, institutional and industrial markets.

**Provider: Tnemec Company, Inc.**

**Length: 1 Hour**

**Method: Live Instruction, On Demand**

## PRESENTER QUALIFICATIONS

All Tnemec continuing education presenters have been trained on AIA/CES guidelines. In addition, they receive continuous in-depth field training and are considered industry experts.

## LEARNING OBJECTIVES

- Discuss and compare types of floor and wall systems and identify their intended uses
- Discuss considerations for successful applications
- Discuss the need for high-performance protection for seamless floors and walls
- Understand the importance of performance-based specifications

**TO SCHEDULE A PRESENTATION,**  
visit Tnemec University or contact your  
local Tnemec representative.
