

COURSE NUMBER: TNE022

Selecting Exterior Topcoats Based on Aesthetic Performance

Credit: 1.0 LU | HSW | PDH

COURSE DESCRIPTION

There are many factors that can cause sunlight to fade the color and gloss level of a coating. In this course, participants will learn about the aesthetic performance of the most common types of topcoats, examine the effects of UV exposure on color and gloss retention, and learn how to select and specify topcoats based on expected levels of gloss and color retention performance.

Provider: Tnemec Company, Inc.

Length: 1 Hour

Method: Live Instruction

PRESENTER QUALIFICATIONS

All Tnemec continuing education presenters have been trained on AIA/CES guidelines. In addition, they receive continuous in-depth field training and are considered industry experts.

LEARNING OBJECTIVES

- Understand the basics of ultraviolet (UV) light
- Understand how UV degrades a coating binder and color pigment
- Understand how color and gloss are measured
- Learn how to protect coatings from UV light
- Learn how to select and specify topcoats based on performance
