

**COURSE NUMBER: TNE024**

# The True Value of High-Performance Coatings

Credit: 1.0 LU | HSW | PDH

## COURSE DESCRIPTION

This program will teach the participant how to evaluate the true value of high-performance coating systems, including life-cycle cost. Discussion will focus on the importance of selecting coatings based on their performance characteristics rather than their initial price. Case studies and test standards will be reviewed to help architects and specifiers develop specifications to include quality coating systems.

**Provider: Tnemec Company, Inc.**

**Length: 1 Hour**

**Method: Live Instruction**

## PRESENTER QUALIFICATIONS

All Tnemec continuing education presenters have been trained on AIA/CES guidelines. In addition, they receive continuous in-depth field training and are considered industry experts.

## LEARNING OBJECTIVES

- Discuss the importance of selecting coatings based on performance rather than price
- Understand the true value of life-cycle cost and how to incorporate life into costing methods
- Address the benefits of a quality coating system and the value of coating performance through review of case studies
- Identify how to ensure coating performance utilizing test standards and specifications

**TO SCHEDULE A PRESENTATION,**  
visit Tnemec University or contact your  
local Tnemec representative.
