

COURSE NUMBER: TNE025

USDA and FDA Compliance for Coatings, Linings and Floors in Regulated Plants

Credit: 1.0 LU | HSW | PDH

COURSE DESCRIPTION

This course discusses the influence of USDA/ FDA regulations on selecting and specifying high performance coatings for use in food, beverage, and pharmaceutical plants as well as generic paint systems to be used for both compliance and site performance.

Provider: Tnemec Company, Inc.

Length: 1 Hour

Method: Live Instruction

PRESENTER QUALIFICATIONS

All Tnemec continuing education presenters have been trained on AIA/CES guidelines. In addition, they receive continuous in-depth field training and are considered industry experts.

LEARNING OBJECTIVES

- A beginning understanding of the difference between USDA and FDA requirements for coatings in food/beverage and pharmaceutical plants
- The necessary compliance requirements for product(s) to meet these guidelines
- Generic coating systems for specific plant areas/substrates that will meet the guidelines
- Specific surface preparation requirements for effective performance of coatings and linings
