For assistance when specifying coating for California, the state has been broken down into four applicable rules within this document: AIM, CARB 2002 SCM, CARB 2007 SCM, and SCAQMD. The lower limits for the CARB 2019/2020 SCM took effect on 1/1/2022 and have not been adopted by any local air districts at this time.

Colorado and the Utah counties of Box Elder, Cache, Davis, Salt Lake, Tooele, Utah, and Weber parallel the CARB 2007 SCM limits.
